## **Mazda CX-60 Takumi destined for SA**

The Mazda CX-60, which arrived in SA earlier this year, is fast becoming a favourite in the Mazda stable. The elegant SUV is turning heads around the country and, to add to the excitement, Mazda Southern Africa has announced that the CX-60 Takumi variant will soon be added to the local line-up.

The Mazda CX-60 will be the range flagship with its 3.3Litre in-line 6-cylinder Turbodiesel Mild Hybrid. The impressive powerplant produces 187kW and 550Nm.

The Mazda CX-60 Takumi features an exclusive front bumper design, a bar type piano black grille, a bright metal finish to the front signature wings, side signatures and glazing surrounds, and 20-inch, black metallic, diamond-cut machined alloy wheels.

According to Craig Roberts, MD of Mazda Southern Africa, "The CX-60 is a brilliant SUV in any derivative, and we are thrilled to be adding the Takumi to our local range."

The Mazda CX-60 Takumi is expected to arrive in South Africa in February 2024. Pricing and full specification will be confirmed closer to the time.
